

PART III AMENDMENTS

A] MARKED UP CLAIMS 1 AND 12 SHOWING AMENDMENTS:

1. (Amended) A meal-equivalent food bar comprising:
segment dividers which divide the bar into segments
corresponding to the plural courses of a meal including
appetizer, main-course, and dessert, wherein:

(a) the appetizer ingredients include one or more
appetite stimulants in an amount sufficient to stimulate
appetite,

(b) the main-course includes major nutrition
ingredients,

(c) the dessert ingredients include one or more
appetite depressants in an amount sufficient to depress
appetite, and

each segment has at least one ingredient different from
the other segments, whereby

the meal-equivalent food bar provides improved
physiological and psychological support for the consumer.

PART III A] (CONT) MARKED UP CLAIMS

12. (Amended) A food bar divided into segments corresponding to plural courses of a meal, including:

(a) a first segment which includes one or more appetite stimulants in an amount sufficient to stimulate appetite,

(b) a second segment which includes one or more appetite depressants in an amount sufficient to depress appetite, and

each segment has at least one ingredient different from the other segments, whereby

the food bar provides improved physiological and psychological support for the consumer.

PART III B] REPLACE CLAIMS 1 AND 12 WITH:

1. (Amended) A meal-equivalent food bar comprising:
segment dividers which divide the bar into segments
corresponding to the plural courses of a meal including
appetizer, main-course, and dessert, wherein:

(a) the appetizer ingredients include one or more
appetite stimulants in an amount sufficient to stimulate
appetite,

(b) the main-course includes major nutrition
ingredients,

(c) the dessert ingredients include one or more
appetite depressants in an amount sufficient to depress
appetite, and

each segment has at least one ingredient different from
the other segments, whereby

the meal-equivalent food bar provides improved
physiological and psychological support for the consumer.

(CONT) PART III B REPLACE claim 12 WITH

12. (Amended) A food bar divided into segments corresponding to plural courses of a meal, including:

(a) a first segment which includes one or more appetite stimulants in an amount sufficient to stimulate appetite,

(b) a second segment which includes one or more appetite depressants in an amount sufficient to depress appetite, and

each segment has at least one ingredient different from the other segments, whereby

the food bar provides improved physiological and psychological support for the consumer.

PART III C] MARKED UP AMENDED CLAIM 14

14. (Amended) A meal-equivalent food bar divided into segments corresponding to plural courses of a Conventional Meal, including:

- (a) a first segment equivalent to appetizer;
- (b) a second segment equivalent to main-course;
- (c) a third segment equivalent to dessert, and

each segment has at least one ingredient different from the other segments, whereby

the meal-equivalent food bar provides improved
physiological and psychological support for the consumer.

PART III D] REPLACE CLAIM 14 WITH:

14. (Amended) A meal-equivalent food bar divided into segments corresponding to plural courses of a meal, including:

- 
- (a) a first segment equivalent to appetizer;
 - (b) a second segment equivalent to main-course;
 - (c) a third segment equivalent to dessert, and

each segment has at least one ingredient different from the other segments, whereby

the meal-equivalent food bar provides improved
physiological and psychological support for the consumer.

PART III E] MARKED UP AMENDMENT TO SPECIFICATION

MARKED UP

(Second Amendment) In the specification, replace the third paragraph (Cake and ...) of page 2 with:

Cake and Candy bars such as: BABY RUTH (TM), a solid cyclindrical bar of continuous aggregate ingredients coated with a layer of chocolate; MOUNDS (TM), disconnected coated segments of a cored rectangular bar; and CADBURY CHOCOLATE (TM), a rectangular bar divided into a grid of frangibly-connected portions; OREO (TM) COOKIES, a sandwich of wafers and creamy center; and

PART III F] AMENDMENT TO SPECIFICATION

(Second Amendment) In the specification, replace the third paragraph (Cake and ...) of page 2 with:

Cake and Candy bars such as: BABY RUTH (TM), a solid
cyclindrical bar of continuous aggregate ingredients coated
with a layer of chocolate; MOUNDS (TM), disconnected coated
segments of a cored rectangular bar; and CADBURY CHOCOLATE
(TM), a rectangular bar divided into a grid of
frangibly-connected portions; OREO (TM) COOKIES, a sandwich
of wafers and creamy center; and
